ABOUT BEYOND CLOUD

Welcome to Beyond Cloud.

Join our organization of exceptional colleagues who enable innovation and deliver routine excellence for clients, all while creating new possibilities and having fun!

What We Do.

At Beyond Cloud Consulting, we're dedicated to strategy, technology, and supporting the growth of our diverse clients. As a NetSuite Alliance Partner, we provide a wide range of specialized and complex NetSuite services to support their long-term success across many industries.

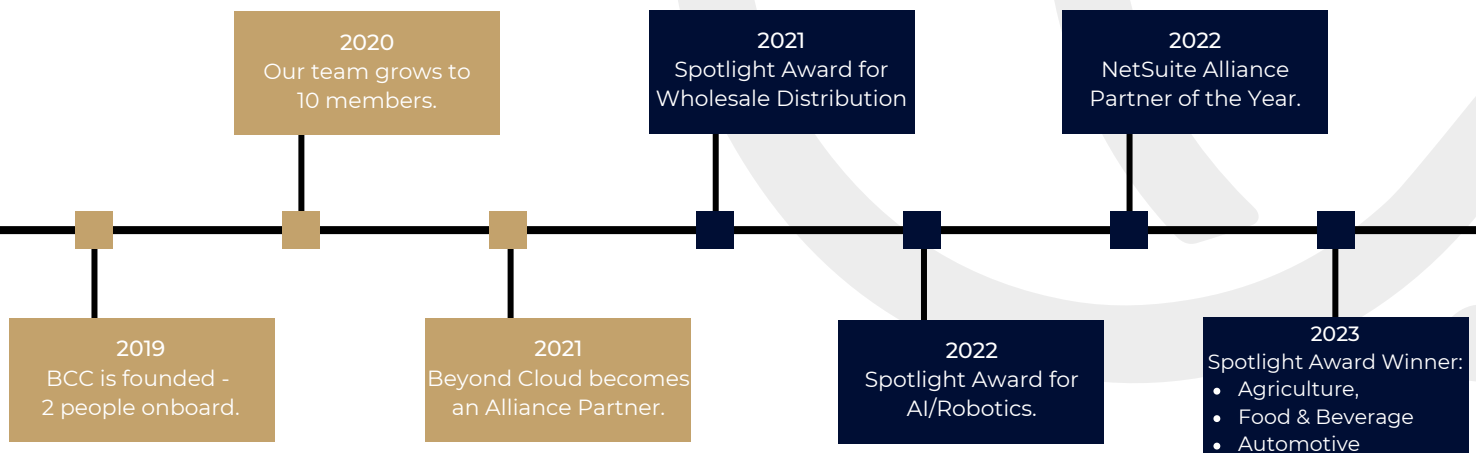

What is **ORACLE®** NETSUITE?

Oracle NetSuite is the leading all-in-one cloud business management solution. It provides organizations with a single integrated application suite to manage accounting, order processing, inventory management, production, supply chain, and warehouse operations.

Beyond Cloud provides a wide range of NetSuite services to help organizations **upscale, upgrade, and transform** their operations digitally.

Our Journey So Far.

OUR CULTURE

Putting people first: it's not just our commitment, it's our culture.

We value our people. At the end of the day, business is personal.

We are dedicated to creating a culture where our team members are supported, challenged, and feel included. Our organization is as diverse as the clients we service and the industries we specialize in. We understand the value of both **individuality and collaboration**, and we continue to embrace **inclusion, respect, and equal opportunity**.

Our leadership is committed to the development of every employee - you'll work on meaningful business transformations while taking advantage of industry-exposure and professional experiences, while we ensure you have all the support, accountability, mentorship, and advice you need to grow from a **new graduate into a future leader and industry professional**.

Our Core Values

Transparency

Collaboration

Learning

**Custom
Experiences**

Customer Focus

BUSINESS ANALYST PROGRAM

Shape Business Strategy with NetSuite.

In the Business Analyst Program, you'll be **working to evaluate current systems, develop strategic plans, and analyze business processes** to be carried out within NetSuite Implementations.

You'll be a part of diverse business upscaling and obtain **experience** working with a variety of different industries and microvertical clients. You'll be working with **real-world projects** while attaining goals and maintaining a healthy work-life balance.

12
Weeks

Analyst Development Program

Begin with the fundamentals of a NetSuite consulting career.

24
Months

World Class Training Fellowship

From Graduate to Professionally Certified NetSuite Consultant - all in 24 Months.

During this program you will:

- Complete self-service training with cloud learning resources to become familiar with NetSuite and achieve professional certifications.
- Participate in consulting skills workshops to learn about our practices.
- Work directly with clients under a Lead Consultant from the first day.
- Lead process areas for NetSuite configurations and walkthroughs.
 - Implement best-practice methodologies for customers to improve and scale their business processes.
- Complete analysis, data cleansing, and complete CSV imports for various entities within NetSuite.
- Analyze complex requirements and be responsible for documenting, implementing, testing, training, converting data, and/or supporting Clients on an ongoing basis after implementation.
- Have a great experience and the opportunity to grow your industry/technical expertise and leadership skills towards becoming a consultant with the firm.
