ABOUT BEYOND CLOUD

Welcome to Beyond Cloud.

Join our organization of exceptional colleagues who enable innovation and deliver routine excellence for clients, all while creating new possibilities and having fun!

What We Do.

At **Beyond Cloud Consulting**, we're dedicated to strategy, technology, and supporting the growth of our diverse clients. As a NetSuite Alliance Partner, we provide a wide range of specialized and complex NetSuite services to support their long-term success across many industries.
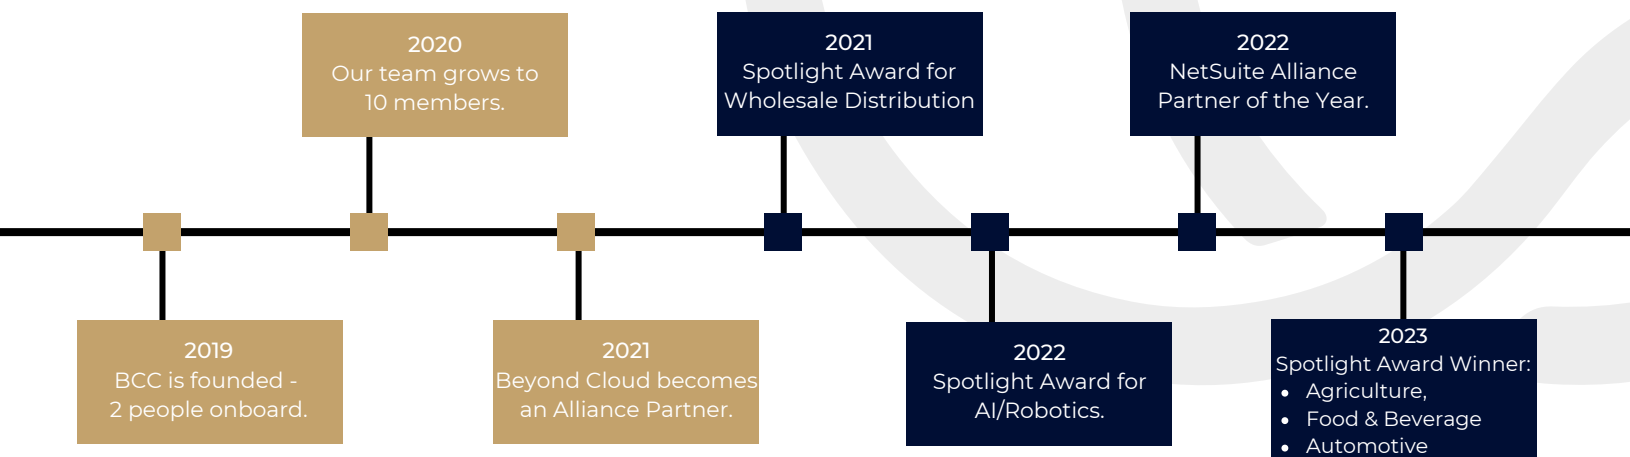

What is ORACLE NETSUITE?

Oracle NetSuite is the leading all-in-one cloud business management solution. It provides organizations with a single integrated application suite to manage accounting, order processing, inventory management, production, supply chain, and warehouse operations.

Beyond Cloud provides a wide range of NetSuite services to help organizations **upscale, upgrade, and transform their operations digitally.**

- Agriculture,
- Food & Beverage
- Automotive

OUR CULTURE

Putting people first: it's not just our commitment, it's our culture.

We value our people. At the end of the day, business is personal.

We are dedicated to creating a culture where our team members are supported, challenged, and feel included. Our organization is as diverse as the clients we service and the industries we specialize in. We understand the value of both individuality and collaboration, and we continue to embrace inclusion, respect, and equal opportunity.

Our leadership is committed to the development of every employee - you'll work on meaningful business transformations while taking advantage of industry-exposure and professional experiences, while we ensure you have all the support, accountability, mentorship, and advice you need to grow from a new graduate into a future leader and industry professional.

Our Core Values

| Transparency | Collaboration | Learning | Custom Experiences | Customer Focus |

JUNIOR DEVELOPER PROGRAM

Building the Future of Digital Transformation.

In the **Junior Developer Program**, you'll be working closely with our senior developers to develop and customize NetSuite ERP solutions.

You'll work on **meaningful business transformations** while reaping the benefits of exposure and working into a **market-leading salary**. You'll also be collaborating with **Industry Experts** and receiving top-notch training to achieve goals at a workplace that cares about your work-life balance.

12 Weeks — **Technical Development Program**
Begin with the fundamentals of a technical NetSuite consulting career.

24 Months — **World Class Training Fellowship**
From Graduate to Professionally Certified NetSuite Consultant - all in 24 Months.

During this program you will:

- Complete self-service training with cloud learning resources to become familiar with NetSuite and achieve professional certifications.
- Participate in consulting skills workshops to learn about our practices.
- Work directly with clients under a lead developer from the first day.
- Lead process areas for NetSuite configurations and walkthroughs.
- Implement best-practice methodologies for customers to improve and scale their business processes.
- Analyze complex requirements and be responsible for documenting, implementing, testing, training, converting data, and/or supporting clients on an ongoing basis post-implementation.
- Write clean, maintainable, and efficient code - and troubleshoot/debug as necessary.
- Design and implement new features and functionalities.
- Collaborate with cross-functional teams to identify and solve software problems.
- Participate in code reviews and contribute to team standards and best practices.
- Keep up-to-date with emerging trends and technologies in software development.
- Grow your industry/technical expertise and leadership skills while kickstarting your career!

100 % remote work environment.

Junior Developer Sample Career Path

NetSuite Developer → **Staff Developer** → **Senior Developer** → **Principal Developer** → **Consultant - SME**

Delivery Manager

"I joined **Beyond Cloud Consulting** as a fresher right after graduating from college. Initially, everything was new to me. It was a steep learning curve, there were many things that I did not know about but gladly I got an **opportunity to learn them.**

Within a few months, I found myself working on real projects. We have a **great team,** and all our colleagues are always ready to **share their knowledge** and happy to **offer help** in all forms, I never felt there was a shortage of support at any time.
